

My Best Birthday by Lara F.

Have you ever had a higgledy-piggledy birthday? A birthday with flour in your hair, dough stuck in between your fingers, and frosting all over the table? My birthday party had all that! Can you guess what party it is? It is a cooking party!

My cake was a square and had the gamer Stampy Cat on it. The cake's top layer was chocolate, the bottom layer was vanilla, and in between the yummy layers was cookies and cream frosting. It was very moist and fudgy. The cake had little squares made of fondant that looked like the real pixels in the video game. It looked like the real Stampy!

Most of my presents were Minecraft themed! I got more than fifteen presents. Some presents were crafts but my favorite present was the necklace and journal Christa gave me. My second favorite was all the money I got. All the cards that my friends gave me were very thoughtful and sweet.

My favorite part of the party was the cooking! First, we made pizza and cupcakes. Everyone wanted the cocoa powder but when we tasted the powder alone it was so bitter! I made a pepperoni pizza with the pepperoni shaped like a smiley face. My cupcake was chocolate with tons of frosting! When we finished no one was clean!

My birthday was so fun, and all my friends made it better. That day was the most special party I've had. I had a blast! That was my best birthday.
