

November 4, 2016

Dear Veteran,

Thank you for serving our country. We all appreciate it very much. American's can go to any school, be together, and they can worship and believe any God they choose. America has grown so much. I'm so proud to be an American. We thank you for all you have done for our country.

Since you fought really hard in wars I can be in school with a lot of different people. When we read Social Studies we hear about what you did for America. My class and I watch videos about veterans in library. I hope you have a good Veteran's Day. You really deserved it.

Your friend,

Mya
