

Dear Parents and Incoming Students of Grades 4 to 8,

June 30, 2017

We are very happy to announce that our Type to Learn 4 keyboarding program is now fully CLOUD-BASED! This means that this program can now be accessed from any type of device and platform and can be used anywhere in the world that there is an Internet connection and a Web browser. You no longer have to download the huge file to your computer, as a matter of fact you can DELETE it today from all your computers, as that platform no longer will work. All of your data and progress have been migrated to the cloud-based platform, so there should be no interruption of your summer keyboard practice.

To Launch the Cloud-Based Type to Learn Adventure, please follow these easy steps:

Go to <https://www.typpetolearn.com/login/index.php>

Sign in

Launch Type to Learn

TYPE TO LEARN

Type to Learn is a systematic, differentiated program to provide instruction and practice to learn and improve keyboarding speed and accuracy through a mission as an Agent of Information. [Launch Type to Learn](#)

Ben Jones

Current Accuracy: 94%
Current WPM: 39
Accuracy Goal: 90%
WPM Goal: 22

As always we do expect our students to practice their keyboarding skills over the summer months, especially those students who are going into 4th, 5th, 6th and 7th Grades, as most everything we do in those grades is typed on the Chromebooks. All those incoming 8th Grade students are required to have completed all 34 Lessons and all activities before they graduate in June, so these summer months are a good time to get finished before September.

Please feel free to email me at dknox@staugustinenj.org if you cannot remember your username or password or if you are having any issues accessing your account using the new Cloud-based URL above.

Thank you for all your at-home summer support to ensure that our students are well prepared for the 21st Century. Please use this link to read about the importance of learning this essential skill:
